

## Occurrence record during the pandemic

**Nurchahyo Utomo**

Investigator Komite Nasional Keselamatan Transportasi (KNKT)

***Abstract.** During the COVID-19 pandemic, the number of flight reduced up to 70% to 80% (reported). Except for Papua, the frequency of cargo flight did not affect significantly. Anticipating decreasing of operation activities, DGCA issued several regulations and exemptions. KNKT investigation did not decrease significantly. CASR 121.439 requires for a pilot to perform minimum of 3 take offs and landings within 90 days. CASR 121.441 requires a pilot to perform proficiency check for a pilot in command, within 6 months and for other pilots, within 12 months.*
